

Christoph Perkuhn appointed administrator of ALBA ProjectManagement Romania

Bucharest, April 2009

Christoph Perkuhn has been officially appointed as additional administrator of ALBA Romania starting with the 1st of April 2009. The architect takes over the technical department, along with the longtime administrator Martin Kocher.

„Already for two years we have been looking for an eligible colleague who can run the technical department, and thus give me the opportunity to concentrate on my commercial, organizational and logistic tasks” says administrator and spokesman Martin Kocher. „I personally very much approve of having appointed Mr. Christoph Perkuhn, as he represents the perfect match at the level of administration, due to his profession as architect and his high competences in the technical department. Mr. Perkuhn is an in-house colleague of our holding company in Germany, who has transferred to Romania a couple of months ago.“ .

Member of the Bavarian architectural association, Mr. Perkuhn has attended several skills enhancements after taking his university degree in Stuttgart and along with his professional engagement on organizational topics regarding project management such as scheduling and schedule control, budgeting and cost control. The acquired skills qualify him for the new position.

“Especially as an architect I have always been particularly concerned with the structured and target oriented development of my projects. A successful project for me does not only mean a good concept, color and form – no, a good project stays within the budget, respects the deadlines and the required quality. I look forward to my new responsibilities, which do not only imply architectural tasks, but also project-related ones” says Mr. Perkuhn.

„The decision to transfer my professional center to Romania, was taken on the grounds of my finding the international environment provoking.“

Together with Martin Kocher, Christoph Perkuhn will consolidate and further expand the market position of ALBA in Romania.

About ALBA Romania

ALBA ProjectManagement Romania S.R.L., founded in May 2004, is an affiliated company to the German ALBA BauProjektManagement GmbH to an extent of 99%. ALBA Romania regards itself as a representative of the beneficiary and organizes, coordinates and controls all construction project phases from the architectural competition, the planning, authorization and tendering procedure to the realization of the project and the primary operation. The integrity, motivation and competence of the ALBA employees, along with the nearly 5 years experience on the Romanian market and the 30 years experience on the German market, turn ALBA into a competent partner for beneficiaries and investors. Since its foundation in Romania ALBA has grown steadily. At the moment ALBA, with 20 employees, is in charge of projects of famous German, Austrian and international investors in the hotel, residential and office building sector.
